Subject: "Microsoft Settlement"

To whom it may concern,

For the last 8 years, Microsoft has been the subject of continual harassment by our Federal Government. This was started one year after Clinton was elected into office as POUS. The reason for this harassment was and is pure politics. During his campaign for President, Clinton was supported in this effort by Larry Ellison, Pres of Oracle. Oracle competes with Microsoft. Oracle was loosing market share to Microsoft at that time (and they still are...). Ellison convinced Clinton to wage war with Microsoft in hopes that Oracle would gain a better position in their market. Microsoft successfully defended itself against this attack. A settlement was finalized that all parties agreed to abide with.

The USDOJ should also honor this settlement. To continue to attempt to destroy an American company the way you have, is contrary to all the beliefs of our free society.
